

# Colloquium Announcement

The [Department of Mathematics at Knox College](#) is proud to welcome Knox College student

## Joshua Schumacher

candidate for the Financial Mathematics major from the Department of Mathematics. The title of his talk is

### Introduction to Commodity Swaps, Interest Rate Swaps, and Currency Swaps

This presentation will focus on commodity swaps, interest rate swaps, currency swaps, and arbitrage pricing, reducing the confusing financial jargon, in a way more suitable for the average person to understand. We will also expand on commonly used financial terms, such as forward contracts and arbitrage.
